Political persecution Alert - 1 (corrected)

This morning, on 2/1/2018, I noticed some indications about an alleged, ongoing fabrication of a false allegation against myself in order to become jailed. In the afternoon, while I was in a super market I noticed (probability 90%) two unknown to me persons to video taping me with the one's of them mobile phone.

Due to the current political circumstances, in Europe, I may have become excessively cautious.

However, if, such a false allegation is actually being fabricated, then, I suppose that it may has to do with my recent revelations, about the bulgarity of my permanent residence, about the arbitrary deprivation of my monetary income and about the "Monarch" programming's atrocities.

I hope that, the colonialist realize that today is 2018 and not the medieval period and to act accordingly, meaning, to refrain from all kinds of violence; to undertake their responsibilities; and to stop persecuting the legitimate dissidents everywhere.

May all this be a product of exaguration.
