Open Letter to CPIRMCT Mr. Serge Brammertz

To: Chief Prosecutor of the International Residual Mechanism for Criminal Tribunals Mr. Serge Brammertz

From: A Greek citizen Mr. Christos Boumpoulis

Date: 20/3/2019

Subject: Settler-Colonization against Greece

Dear Mr. Serge Brammertz,

The British settler-colonialism is destroying the Greek Nation.

I have already resorted to the International Criminal Court at Hague and to the European Court for the Human Rights and they do nothing to rescue my country.

I address to your sense of duty and disency and I kindly ask you to do, at once, whatever it takes to rescue the innocent and kind Greek Nation.

Cordially,

Open Letter to Netherland's Prime Minister Mr. Mark Rutte

Your Excellency Mr. Mark Rutte,

Could you please offer me protection against the, politically persecuting me, British government?

I am, involuntarily, with claustrum manipulating, brain implanted by the British government since my youth, as having been subjected, as a human "guinea pig", to illegitimate human experimentation conducted by them.

Since 2008 and then, as a legitimate, human rights' activist and political dissident, I promote to the public opinion the knowledge of the Greek citizens' human rights violations of this kind.

Currently, according to the prominent law professor Mr. George Kasimatis, Greece has fallen under dictatorship and according to the prominent retired army general Mr. George Ayfantis, Greece remains under occupation.

The colonising British government and other collaborating governments, perpetrate a modern version of the deadly "Operation Condor" which has resulted the political assassinations of many members of Greece's natural leadership like, Giannos Kranidiotis, Arch. Christodoulos, Tassos Papadopoulos, Malvina Karali, Socratis Giolias, Kostas Tsalikidis, Giorgos Gennimatas, Panagiotis Kondylis, etc.

On June 2010, the Greek Parliament's members committed overtly a treason, with regard to the "Huge Cooper & Co" treaty, which caused the unjust death of, at least, 10.000 innocent civilians.

The British government retains upon the Greek soil front-organizations which perpetrate, crimes against humanity and a genocide.

According to publisized formal documents, the British government has instigated, since March 1999 and then, crimes against my family and me: my father was tortured to his death; my mother which is an essential judicial witness, has been deprived from her human rights; and I remain subjected to a long term political persecution (gang-stalking, zersetzen-torture, which are death-programs).

The British government, while violating a large part of the international law, and various international treaties, like the related to the human rights, has imposed on me and to others, involuntarily, the most monstrous kind of slavery: while I walk in public places, e.g. supermarkets, streets, airports, railway-stations, libraries, etc., operatives loyal to the British government may, by using wireless technical means, induce to me, involuntarily, the mental state of "awake unconsciousness" in order for them to fabricate false incriminating legal evidence and use them to slander, either, my legitimacy, or, my mental health.

Cooperating with other Greek citizens I struggle to participate in Greece's political system as an elected politician in order to contribute in Greece's liberation and in Greek citizens' rescuing. Against this moral cause, the British State, which in the past didn't hesitate, to exterminate the Tasmanian Nation and to castrate the Mau Mau leaders, has attempted, more than once, to assassinate me and currently struggles, by using even the most monstrous means, to slander my impeccable legitimacy and my exemplar mental health.

There are many gang-stalking victims who claim, within various articles in the Internet, that the entire European Continent suffers from the contemporary British settler-colonialism. Therefore, if these claims are true,

me, as a member of an atrociously victimised, by the colonisers, family, and provided that you would previously garranty my personal security, I would be happy to share with you all the related information which I possess in order for you to, preemptively or correctively, rescue you honorable country, the Netherlands, from this contemporary calamity.

For the sake of the human civilisation; for the sake of avoiding our societies to degrade in a "dog-eat-dog" and "live-and-let-die" mentality; for avoiding the entire human kind becoming, through the involuntary transhumanisation, enslaved like me, I supplicate you to protect me, a victim of involuntary brain implanting and a lawful citizen, from the, direct and indirect, British political persecution, in order, to live, long, healthy, free and creatively and in order to help in liberating my fellow citizens.

Accountability-Free Genocides

On 5/5/2010, the Greek citizens protested massively, against Greece's colonisation, through opposing the intervention, within Greece's instrumental economic crisis, of the IMF.

The Greek's determination was crushed through the murder of three innocent civilians at the Marfin Bank's burning.

Who should become accountable for these murders' instigation?

On 23/7/18, the Greek citizens protest massively against the Greek government's plans to sold-out, unjustly, Greece's vital infrastructures.

The Greek's determination was crushed through the murder of around 100 innocent civilians which were burned at the Mati village.

Who should become accountable for these murders' instigation?

Αυστραλιανά μέσα χαρακτηρίζουν τον 28χρονο δράστη των επιθέσεων «τέρας» και προσπαθούν να εξηγήσουν πως ένας ο νέος, χαμογελαστός άνθρωπος, που εργαζόταν ως γυμναστής εξελίχθηκε στον μακελάρη του Κράιστσερτς.

On 15/3/2019, a smiley and legitimate political dissident published in the Internet more, undeniable evidence (incident 14/3/2019) about his being gang-stalked by the British government. On 16/3/2019, the www.dw.de seemingly attempted (triangulation maybe?), within the above mentioned article that referenced a massacre, at New Zealand, of 50 innocent civilians, to dissasociate, being smiley from being mentally healthy, innocent and kind.

Who should become accountable for this massacre's instigation?

The U.S.A.'s G.D.P is 20.5 trillion USD and U.K.'s is 2.8 trillion USD. Is there anyone that believes that, countries who throw to political "garbage" even their prime ministers just because they fought against the narcotics, to be able, by using exclusively legitimate means, to achieve such large GDPs?

The form of colonialism that the Indigenous peoples of North America have experienced was modern from the beginning: the expansion of European corporations, backed by government armies, into foreign areas, with subsequent expropriation of lands and resources. Settler colonialism requires a genocidal policy.

The settler-colonisers, through the ages, perpetrate crimes against the colonised populations. The current issue, now, has to do with the accountability of these crimes.

Traditionally, when, incriminating information of such crimes was disclosed publicly, then, scape goats, like Oliver North, were employed in order for the colonising Nations overall, to escape the related accountability.

However, the technological progress seems that has offered solutions to the colonisers' aversion towards accountability.

Hypothetically, a computer program could, automatically, coordinate all these millions of "perps" which gang-stalk all these hundreds of thousands of legitimate "targeted individuals", if, both, the perps as well as the targeted individuals, were all brain implanted and linked to some super-computers through the existing data-networks. And this program could never become accountable for the "negative" consequences of its operation.

Dr Leena-Rauni Luukane-Kilde, in one of her youtube videos revealed that, "they" use certain Hollywood's movies in order to, indirectly, confess publicly some of their Human Rights violations as a fabricated alibi that, at least, they tried to promptly inform the populations. It seems to me that she is right.

Accordingly, when I watched, for once more, the movie "Mission Impossible III" and I noticed the reference to the "imaginary" (?) fire-cracker/brain_implant combination, I realised that, the perpetrators of the Tasmanian Nations genocide, seemingly, they would have had nothing to lose by having had embedded a miniature fire-cracker to the brain implants they have, involuntarily, implanted to an unknown number of unsuspected human beings.

Few days ago a citizen answered me, when I asked him whether he was informed about the contemporary human rights violations, that he was not, due to his personal time being consumed by his job and by struggling to support his own family.

The contemporary settler-colonialism seems to me that requires prompt and active measures in order for the affected Nations to survive.
