The Horrible Helplessness Of The Greek Citizens

Currently, the Greek citizens manifest extreme helplessness in identifying and intercepting the settler-colonising, non-uniformed army which occupies in Greece, all, the State's and social foundations' gate-keeping positions, the organised crime's positions and the terrorist groups' positions.

Simultaneously, the settler-colonising States perpetrate against the legitimate Greek political dissidents, murders; slandering; secret trials; hostage-situations; gang-stalking; exiles; enforced disappearances; tortures, etc.

And the rest of the international community, which knows everything about Greece's dire straits, keeps doing "business as usual".
