Open Letter to Xi Jinping, President of China Your Excellency Mr Xi Jinping,
According to your words:

China and Greece should take lessons from “the deep wisdom of their ancient civilizations” and jointly foster the creation of “a new type of international relations based on respect, justice and mutually beneficial cooperation.”

During the past sixty years the Greek Nation suffers from the genocidal policies of its settler-colonisation.

The domestic and “drugged and maddened with opiates beforehand” Stay-Behind/Gladio non-uniformed colonising-soldiers are the world’s second worst criminals while, our judges and prosecutors are the worst kind of all.

They established a ruthless dictatorship; they genocide the Greek Nation; they exterminate our natural leadership and whoever they deem as non-stupid; they have established modern “psychiatric” gulag; and they reduce our children to human spare-parts sources for correcting their personal disfunctions due to their opiates consumption.

The political oppression in Greece has murdered many hundreds of thousands of innocent civilians and children.

During this calamity, for the Greek Nation, your country arranged with Greek speaking members of so-called "martial races" and bought, against the Greek Nation's will, commercial rights related to the Piraeus port which constitutes a sensitive infrastructure of our Nation and intends to sign more commercial agreements with our dictators.

According to a Chinese proverb:

Respect out of fear is never genuine; reverence out of respect is never false.

And according to Confucios:

"Do not impose on others what you yourself do not desire."

"Have no friends not equal to yourself."

"The superior man understands what is right; the inferior man understands what will sell."

"Without feelings of respect, what is there to distinguish men from beasts?"

Concluding, by not swiftly canceling all China's investments and commercial agreements which were made without the Greek Nation's consent, I regret to say that, the Chinese and the British civilisations, for the Greek citizens, shall irreversibly become designated as having no qualitative difference, what so ever and our bilateral relationship, when Greece becomes liberated, shall evolve accordingly.

Sincerely,

Christos Boumpoulis

economist
