Operation Schwarzwald

Television, systematically, broadcasts views of dramatic circumstances originating from movies or from TV-news.

The television audience, gradually, becomes desensitised to the views/knowledge of dramatic, virtual and actual, events and literary cements an apathetic response; and this induced by tv apathy is disastrous.

Recently, I came to the conclusion that, the German citizens, more or less, they may have been, quasi “intoxicated” by the excessive watching of TV, to the extent that I am starting imagining that, in case emergency circumstances should rise, the German citizens due to this alleged “TV-intoxication” may fail to react promptly and adequately.

As being an quasi member of the excellent and kind German Nation I feel as being my duty to react creatively towards the above, supposed, collective threat; thus, I wish to propose the following “Operation Schwarzwald” effective immediately.

Operation Schwarzwald

Purpose

Operation Schwarzwald

1. The “detoxification” of the German citizens from the tv-induced and other environmental elements, apathy.
2. The unfolding of the full creativity-potential of the German Nation’s members.
3. The German Nation’s reproduction.

Method

1. This project applies exclusively, to the Black Forest; to the working citizens inhabiting the Baden-Württemberg area; to the not-working adult German citizens; To the working adult citizens exclusively during vacations and weekends.
2. The participants minimise their time spent at their home and maximise their time spent in the Black Forest.
3. While at Black Forest they mentally work as hard as they can in order to maximise their creative thinking by exercising, electronics/mechanical/software engineering, mathematics, algorithms, robotics, automation, scientific research, painting, music, poetry, singing, inventions, politics, cybernetics, etc.
4. While at Black Forest they live in cheap camper-vehicles and they reduce their food to nutritionally adequate but primitive, thus healthy, elements and they drink secure water from the springs. If they wish, they swim at the lakes.
5. Until the end of 2021, the German citizens refrain from travelling abroad for recreational

reasons or for vacations and they visit, instead, the Black Forest.

6. The German Nation's population needs to grow.

7. The German Armed Forces are able and willing to make the Black Forest the safest place on Earth.

8. The German citizens which may benefit the most from their full participation in the Operation Schwarzwald, should become the guides of the rest of the citizens in liberating them from the TV-induced, alleged "apathy".

Deutschland über alles.
