An Indirect Exposure of Europe's Settler-Colonisation

At the Youtube video titled “Abby Martin & Chris Hedges: War, Propaganda & the Enemy Within” (veFMuYNRr8A) at the time frame 7’ 10” Chris Hedges says, “Its a different kind of empire in a sense that, for instanse, you know, British troups actually occupied Indya though many of those troops were Sikhs, raised from the Sikhs, we find venal Elites will do our bidding and when people rise up against those elites the we provide those elites with the resoures by which they can crush any form of rebellion”. And at the time frame 18’ 00” he say, “we have to brake the back of the Empire not only for what the Empire is doing to Frans Fennal calls it, the ‘wretched of the earth’ but for what it’s doing at home. Because as it disebowels the country the harsh forms of control Empire uses at the outer reaches of Empire migrate back to the homeland. So, you get wholesale surveillance, militarized police, indiscriminate use of lethal force on our city streets, as in Baltimore, you don’t have to go very far to see that, and a destruction of our most basic civil liberties, I mean this, you know, this is the disease of Empire, it goes all the way back to Thucydides who saw that as Athens expanded it destroyed its own democracy. So, as Thucydides wrote, the Tyranny that Athens imposed on others had finally imposed on itself. And we are no exception. ... The forms that the Empire uses to control the subject populations abroad are now visible within America, itself.”

Europe is, gradually and covertly, being settler-colonised by the U2RIT.

According to historical evidence, the settler-colonialism uses “drugged and maddened with opiates beforehand” non-uniformed armies in order to apply genocidal-policies against the indigenous populations.

These colonising-armies in the past they had the form, also, of the “Elizabeth’s Pirates” and now they have the form, also, of the “venal Elites”.

The European citizens, due to the nature of the contemporary settler-colonialism, they are unable to comprehend directly its manifestation within the European Continent. However, they are able to observe its reflection upon the settler-colonising Nations, themselves.

The neo-slavery which emerges within the U.S.A., in a sense, whistle-blowing the European citizens' slavery over the past sixty years.

The monstrosities which emerge now in America they are, essentially, the ordinary ways of doing things, since many decades, in Europe, despite the fact that, in Europe, they were adapted to the "plausible deniability" principle.

For example, in Europe, instead of an overt imprisonment due to forged-accusations, the horrible method of r.n.m./brain-locking implanting due to forged-accusations, is applied along with the mass-poisoning of some populations with fluoride and with the subjection, of some populations, to bioterrorism.

The Americas's neo-slavery is nothing else but reflecting Europe's matured slavery.

For example, there is Panagiotis and Olga Bompoulas (my parents) case, in Greece. The Greek venal Elite, during the '70s targeted my family for exploitation as a source of human organs/tissues and human-experimentees. Initially, they unimaginably tortured my parents in order to induce helplessness upon them. Then, they started exploiting inhumanely their son, for many decades, until March 1999 where the illegal exploitation was realised by the victims. Torturing of my family follows until 2015 where my Mother becomes vastly drugged by them and, without her comprehension, she puts her signature in white papers. Then, my Father becomes murdered and my Mother becomes extremely tortured and deprived from her freedom; while, the Greek police and the European authorities refuse to offer any kind of protection to my family's members.

Concluding, any European citizen who wishes to comprehend the covert calamity which the European Continent suffers, s/he only has to observe the America's neo-slavery.
