Legal Notice 143

Today on February 16th, 2020 I visited, while being vital and rested, a fast-food restaurant in order, primarily, to work on few “life and death” issues concerning the Genocide in Greece and the weaponisation of cancer and secondarily, as I was very hungry, to buy food to eat.

As I was working on my computer, I started feeling rather exhausted and tired enough to decide to terminate my work. However, as finishing my work was important, I kept my efforts until my work had finished. Then, I left prematurely from the restaurant before I had the chance to order some food.

For security reasons I compared the elements of my sudden and unexpected weakness with the catalog of the ordinary physical symptoms of an assault with a directed-energy (microwave) weapon and a made certain conclusions with regard to what may had happened in the restaurant.

For obvious legal reasons, I must refrain from mentioning publicly these conclusions.

However, I wish for once more to kindly ask from the German Government to offer me, as soon as possible, a political asylum.

Furthermore, I wish to inform whoever might be concerned that, the dictatorial political establishment which, currently, rules Greece has nothing to do with the indigenous Greeks as, it is concisted almost entirely by Israeli-settlers who are being heavily supported by the U2RIT.

The indigenous Greeks have nothing to do with the ruthlessness which is being exhibited by the Greece's dictatorship. This ruthlessness is homologous to the Byzantine ruthlessness when the leader originated from the Middle-East. And those who manifest it pretend that they speak on the Greek Nation's behalf.

These colonising-settlers are the perpetrators, of the genocidal-policies against the Greek Nation as a whole and also, of the individualised gang-stalking against the legitimate Greek political-dissidents wherever they resort.

The E.U.'s internal borders are open and the Greece's colonising-settlers are able to politically oppress the Greek dissidents all over the E.U. These colonising-settlers I hold responsible for all the gang-stalking that I have suffered abroad since I fled from Greece on May 1st, 2014.

P.S.: My potential being granted from the German Government a political asylum doesn't mean that I shall stop criticizing publicly the U2RIT's international aggression.
