The Origins of the Contemporary Racism

I condemn violence; I condemn racism; I condemn settler-colonialism; I condemn genocide; I condemn slavery.

Introduction

“Entertainment Crimes” and COINTELPRO

In a larger sense, the press engages in what Jeff Cohen has called propaganda from the center. I would modify that by saying that the press and the government engage in both propaganda and terrorism from the phony center. The phony center is the place where the system works. It is the place where no human rights violations happen within the U.S., and where everything runs smoothly so businesses and corporations can go on making money. It is not Republican or Democratic. It is the status quo minus all the unfortunate and ugly realities and events that might cause ripples. Crime and crime coverage fit right into the phony center, though, because this gives the system some bad guys to chase and catch, showing how the system works and even polices itself. State crimes are almost never mentioned, and white-collar crimes are not mentioned often. It is mostly crimes by people who are in what might be called the lower classes, except that in the phony center there is no such thing as class in America. Crime coverage also serves very effectively to scare the public, so they will willingly accede to authority and, increasingly of late, surrender more of their liberties. (There are also the high-profile “entertainment crimes” which can displace real news for months.) Terrorism from the center is any act of terrorism that tends to reinforce the impression of the phony center. It

can serve to discredit “extremists” as well as to terrorize dissidents who might threaten the power of the elites. This terrorism might include public acts to be misreported on the news or cointelpro actions secretly carried out against people and groups.

Main Subject

The propagation of instrumental racism is an act of terrorism on behalf of the “phony center”, namely the settler-colonising empire U2RIT, in order for the criminal contemporary settler-colonialism not to become noticed by the international community.

Therefore, the origins of the contemporary racism is the settler-colonising group of Nations, U2RIT.

Here are the facts:

- Crime and crime coverage fit right into the phony center, though, because this gives the system some bad guys to chase and catch, showing how the system works and even polices itself. State crimes are almost never mentioned, and white-collar crimes are not mentioned often. It is mostly crimes by people who are in what might be called the lower classes, except that in the phony center there is no such thing as class in America. Crime coverage also serves

very effectively to scare the public, so they will willingly accede to authority and, increasingly of late, surrender more of their liberties. (There are also the high-profile "entertainment crimes" which can displace real news for months.) Terrorism from the center is any act of terrorism that tends to reinforce the impression of the phony center. It can serve to discredit "extremists" as well as to terrorize dissidents who might threaten the power of the elites. This terrorism might include public acts to be misreported on the news or cointelpro actions secretly carried out against people and groups.

- Governments exist which, intensely denounce e.g. the Armenians' Genocide and simultaneously, they refuse to even pronounce the Genocides, of the Tasmanians', of the Kenyans', of the Indians' of the Americas, of the Guatamalians', of the Palestinians', of the Syrian children's in Turkey, of the Irish's, of the Cypriots', etc. and the crimes, of the settler-colonialism (which is racial and unilateral) and of the gang-stalking (which is a death-program). By this way, these governments, indirectly, they may cultivate, within their own populations, the racial hatred and the xenophobia and also they may create an incurable division between their own citizens and other races the crimes of which, these governments, scandalously, cover up.

- Right now, on February 20th, 2020 at 23:30, on its facebook webpage, an extra-Parliamentary Greek political party which, recently, has been exposed as being a C.I.A.'s "front-organisation", there is a ridiculous and slandering the Greece's Israelis online post that promotes unjustified hatred against them. [For legal reasons I refrain from mentioning this political party's identity].

- On the evening of the February 19th, 2020, there have been attacks at two hookah bars in the city of Hanau left nine people dead and four injured. The 43-year-old suspected perpetrator was later found dead at his home along with the body of his mother. Germany's attorney general, Peter Frank, said a video and manifesto posted on the suspect's website expressed "not only crazy thoughts and convoluted conspiracy theories, but also a deeply racist mentality." He appeared to be a social loner who was actively involved in online conspiracy-theory groups. The suspect, who German authorities are now referring to as Tobias R., was a member of a local shooting club, where he trained up to three times a week, and the president of the SV Diana Bergen-Enkheim shooting club in the district of Bergen-Enkheim has confirmed. "He was totally inconspicuous," President Claus Schmidt said. "There wasn't the slightest hint of racism or xenophobia, not even a weird joke." ] Consequently, the suspected perpetrator wasn't caught on-action thus the identity of the actual perpetrator remains uncertain; the suspected perpetrator's death has not been eyewitnessed by ordinary civilians; there were no reports in the media, as to whether the

suspected perpetrator's death occurred after or before the attacks, and as to the authenticity of the video and manifesto posted on the suspect's website. Also, there was no report, on whether he was socially marginalised through gang-stalking, on why, the online groups in which he participated, they were categorised as, allegedly, "conspiracy-groups", and on why the president of the SV Diana Bergen-Enkheim shooting club described, the suspected perpetrator's behaviour, as impeccable.

- According to a large number of named and public testimonies which reliable eyewitnesses and victims of gang-stalking and/or settler-colonialism have posted in the Internet, the criminal methods by which, both of these heinous crimes are being perpetrated are such that, their public denunciation to appear as, allegedly, being "crazy thoughts and convoluted conspiracy theories, but also a deeply racist mentality".

As far as I am concerned, I believe that the human life is sacred and invaluable. And I legitimately try to contribute in the peaceful and non-violent restoration of, peace, freedom, cooperation and frugal prosperity, within the civilised countries.

It is common knowledge the fact that, my first country, Greece, since the end of WW1, remains a British-colony and it is a certain fact that, my Father's brother is the Greek oligarch Mr. George Bompolas.

The moral and peaceful character of my personality, as it is unfolding within the 2,500 posts in my website www.agorapoliton.gr (<http://198.136.54.115/~agorapol>) is impossible to hide or misinterpret.

Almost entirely, the claims posted in my articles belong to other reliable political activists and human-rights activists and they are adequately documented with undeniable legal evidence.

Legal evidence of the political persecution of the Greek government against me, they have been posted in my website along with legal evidence about Greece's dictatorship.

Concluding, I wish to urge the governments, which they may indirectly cultivate racism, racial hatred and xenophobia within their population, or, which they neglect to forbid “entertainment crimes” to be committed within their territory, or, which they become instrumental in destroying innocent dissidents who might threaten the power of the elites, to, somehow, find the courage for terminating the horrible settler-colonialism within their homeland and thus to rescue their own citizens from its interlinked genocidal-policies. Instead, these governments, they may, intentionally or due to negligence, contribute to their dissidents’ plausibly deniable extermination and by this way, these governments’ members, to become eligible for the traditional treatments which, the settler-colonisers they dedicate, through the centuries, for the most obedient members of the indigenous populations.
