### Legal Liability for Genocide – Europe Becomes a Wreck

Yesterday the network of my supporters informed me, through my C.B. transceiver that, some of the E.U.'s member-States' government which supported overtly, during the past ten years, the dictatorial Greek regime, they are probably planning to assassinate me because I, unintentionally, made them, through my revelations about the Greek supermarkets' mass-poisoning, legally liable for complicit to a genocide. And from March 19th, 2020 and then, numerous "plausibly deniable" death-threats have been sent to me through the Internet's social-media.

None of the European Security Authorities have responded yet, with regard to the designating a genocide in Greece, legal evidence.

According to my present knowledge, the current political circumstances in Europe are extreme. I feel that I must be very lucky to physically survive from the consequences of the Europe's settler-colonization.

Today, on March 26th, 2020, I sent urgent requests for personal protection, to the Chancellor Dr Angela Merkel and to the German Parliament's President Mr. Wolfgang Schaeuble.

This pan-European political crisis shall probably have a not good end in case the European citizens continue to pretend as being unrelated bystanders.

I kindly request the honest and decent citizens, to provide me with political support and to prey for my survival, good-health and freedom.

Christos Boumpoulis

### Appendix

To: Mr Wolfgang Schaeuble Pr. D. B.

From: Mr Christos Boumpoulis

Date: 26/03/2020

Subject: Request for protection

Your Excellency Mr Wolfgang Schaeuble,

As being a political refugee from Greece, which according to undeniable evidence, she has been degraded to a dictatorship, I kindly request from you to arrange, as soon as possible, for my personal security, here in Berlin.

The United Kingdom and the rest settler-colonizers, they are overtly after large parts of Greece's National territory. For this reason, they assassinate the Greek natural leadership's members; they are mass-poisoning the Greek citizens; and they persecute politically and lethally the Greek political refugees, like me, who have fled from Greece.

According to my present knowledge, the Greek citizens they have no one else to struggle for their freedom, but me.

Recently, I disclosed to the European Security Authorities legal evidence about the genocidal role of some Greek supermarkets.

Consequently, my personal security is extremely at risk.

Concluding, I hope that you shall consider the sacredness of the human life and of the freedom and that you shall satisfy urgently my present request.

Cordially,

To: Dr. Angela Merkel D.B.K.  
From: Mr Christos Boumpoulis  
Date: 26/03/2020  
Subject: Request for protection

Your Excellency Dr. Angela Merkel,

By this letter, I wish to kindly ask from you to urgently arrange for my personal security, as I am a political refugee from Greece, a country which, according to already publicized evidence, is a dictatorship.

Currently, decades of thousands of innocent Greek citizens unjustly die due to applied genocidal policies including mass poisoning through some of the Greek supermarkets. Most of the members of the Greek natural leadership have been assassinated and from the few left alive, those who stay in Greece, they have been silenced trough political repression. According to my present knowledge, the Greek citizens they have no one else but me, for struggling for Greece's liberty.

Recently, I disclosed to European Security Authorities legal evidence about the ongoing genocide in Greece. Therefore, my personal security is extremely at risk.

Concluding, I hope that by your considering the sacredness of the human life and its dependency upon freedom, you shall kindly and immediately satisfy my current request for protection.

Cordially,  
Christos Boumpoulis
