## **The International Aggression Is A Lethal International Crime**

The human life is sacred and invaluable.

The U2RIT's centuries long genocidal traditions manifest a disrespect for the human life.

By providing to the U2RIT military weapons, one, becomes complicit to the U2RIT's potential massacres, by using the provided to them, military weapons.

Greece is being destroyed by the U2RIT's settler-colonialism.

Greece is being governed by an externally led, dictatorship.

The most part of the Greece's most prominent patriots have been, horribly, assassinated; and few which, currently, they remain alive, among them myself, they are being politically persecuted, by the forces of U2RIT, inhumanely.

Turkey's current foreign policy is based on the slogans of the revision of the Lausanne Treaty of 1923, which established the external borders of the Turkish state. The revision demands of this treaty are particularly dangerous to the security of Greece and the territorial integrity of this country. Turkey questions the limits of the continental shelf, the exclusive economic zone, the territorial sea and airspace of Greece. And for this reason, Turkey perpetrates, overt and covert, International Aggression.

At the same time, Turkey, by perpetrating massive human-harvesting of children's organs/tissues (e.g. 18000 children from Syria) declares itself as profoundly being a rogue State.

Under the above mentioned circumstances, Germany provides vast quantities of military weapons and intends to deliver to the rogue State, Turkey, a number of high technology military assault submarines.

All these German military weapons, inevitably, reinforce positively the Turkey's International Aggression and, almost certainly, they shall be used in the near future in order for Turkey to murder, within an imminent Greece-Turkey war, innocent and peaceful, Greek soldiers and civilians.

Furthermore, as Turkey attempts to partially confiscate the, worthing 60+ trillion dollars, Greece's mineral wealth, the provision of support towards Turkey, on behalf of any third party could rise questions about the potential existence of indirect interest towards the Greece's mineral wealth.

Since I consider that, the German and the Greek Nations they are brother-Nations and that, Germany, is a peaceful, lawful and civilized Nation, I wish to request, from the German Nation:

- To, immediately, cancel all scheduled deliveries/orders of all kinds of German military weapons and equipments, to Turkey's.

- To, publicly, denounce, the involuntary human harvesting; the gang-stalking of political-refuges; and the involuntary transhumanization (brain-implants).

- To, immediately, apply the International and German law in order to provide protection to all

existing Greek political-refuges. Towards this ends and under the current circumstances, every minute counts and being a lawful patriot is not a crime.

Concluding, the credibility and the trustworthiness, can very hardly be earned, only after long struggle; while they could, very easily, become lost, in just few minutes.

**P.S.:** Very expensive, and some times controversial, business-contracts with the Greek State, they may have been offered to Germany, by ruthless and Greek speaking colonising-settlers against which and in order to do my duty as a lawful citizen, I have reported to various European security authorities crucial information about their heinous crimes which, they committed, during the past sixty years, in Greece. Instead, I have offered to the German Nation, my friendship, my loyalty and my good services.

### **Cancelling Deal for 2 Warships, France Agrees to Repay Russia**

MOSCOW — France has reimbursed Russia for two warships that were never delivered after economic sanctions imposed against Russia last year blocked the deal.

Russia annexed Crimea, a peninsula in Ukraine last year, an act that drew international condemnation and prompted economic sanctions from the United States and Europe. The two Mistral warships, built to carry helicopters and sold to Russia in 2011, were casualties.

On Wednesday, President Vladimir V. Putin of Russia spoke with his French counterpart, François Hollande, by phone and they later released statements acknowledging that the deal had collapsed and that Russia had been fully reimbursed. They did not say how much money Russia received. Previous reports in the Russian news media put the sum at about \$1.3 billion.

Επικαλούμενο την απάντηση σε επερώτηση της ΚΟ του Αριστερού Κόμματος (die Linke) το ARD αναφέρει ότι η κυβέρνηση μεγάλου συνασπισμού είχε δώσει την έγκρισή της για τη ναυπήγηση των υποβρυχίων κλάσης 214 και ότι το 2011 το γερμανικό κράτος έλαβε εγγυήσεις εξαγωγής ύψους σχεδόν 2,5 δισ ευρώ.

Ανά τον κόσμο υπηρετούν 4 υποβρύχια τύπου 214 στην Ελλάδα (τύπου «Παπανικολής»), 7 στη Νότια Κορέα και 2 στην Πορτογαλία.

## Treaty Revisionism in Turkey's Foreign Policy - a Threat to the Security of Greece and the European Union

Turkey's current foreign policy is based on the slogans of the revision of the Lausanne Treaty of 1923, which established the external borders of the Turkish state. The revision demands of this treaty are particularly dangerous to the security of Greece and the territorial integrity of this country. Turkey questions the limits of the continental shelf, the exclusive economic zone, the territorial sea and airspace of Greece. Since the mid-1990s, Turkey has also begun to question the Greekness of the Aegean islands. The danger of an outbreak of conflict between Greece and Turkey in the Aegean Sea may lead to the renewal of conflicts in the Balkans and thus to the decreased security of other European Union countries.
