Open Letter to Dr. Wolfgang Schäuble 01/10/2020

Your Excellency Dr. Wolfgang Schäuble,

According to reliable information, a crucial part of the European Security Authorities' prioritization may have, partially, become disoriented.

For example, the contemporary colonizing Nations, namely the U2RIT, seem to have massively mobilized the European part of the Gladio army, along with all the European authorities, specifically those which they unofficially remain loyal to the British Crown (e.g. Greece's), in order to, illegitimately, reclaim surgically all, incriminating them (meaning the U2RIT) and involuntarily implanted, electronic, brain-locking, remote-neural-monitoring, implants. Consequently, the involuntarily implanted victims, we may be facing professionally-organized and repetitive, criminal,

against-us, attempts to become framed in ways that we shall be illegally led to a surgical table for an involuntary implants-reclaiming, to take place (along with an almost certain and severe crippling or assassination of the victims). My good friend G.S. was assassinated by this way.

At the same time, innumerable, innocent European citizens, they either suffer from the medical-treatment of their “cancer”, or, they die from “cancer”, while a non-invasive and entryism-proof, complete cure of “cancer” seems to exist since 1930, meaning the one which it was invented by the Royal Rife.

For the above reasons, I kindly request from you to inform the European population about whether or not, vital Security Authorities’ resources should be wasted for nailing/hunting-down/destroying the innocent European victims of illegal brain implanting while, no resources at all being dedicated towards, at least calming down the urge of the pharmaceutical/medical domains’ urge to, literary, upgrade the human-trafficking in Europe to an, actual, industrial scale of production.

Also, in case that, the Royal Rife’s method of cancer’s complete-cure exists, could you please inform the European population whether or not, the European citizens’ deaths allegedly from “cancer” supply with human organs/tissues for smuggling, the transnational organized crime.

Cordially,

Christos Boumpoulis

economist
