Update 13/07/2020-23:00:

There are more information given by the same telecommunication channel. It seems that, this present article it may has revealed the core functions of the contemporary settler-colonialism. If this is true, then, the international community may has reached unmapped sea water. In such a case there are two major directions for the U2RIT to resort to; the one is towards peace, and the other is towards further repression. In any case and while, millions of innocent victims, all over the world, they, either, loose from the settler-colonialism's genocidal-policies, their sacred and invaluable lives, or, they are suffering unimaginable mistreatment, if, anyone exploits the various diversions (Turkey) which the U2RIT is "generously" offering to the international community, in order for him or her to pretend ignorance thus avoiding to rescue his or hers fellow human beings from the settler-colonialism, then, s/he is paving his or hers own, striped from humanness, future, Now, it seems like a good opportunity for anyone to pray. Update 13/07/2020-19:30:

I have been informed through the Citizen Band radio that, the political impact which, this present article created is, almost, tremendous and that, a negative reaction, on behalf of the settler-colonizers and against myself, is highly probable. Since my family and me, we suffer

from Greece's settler-colonization for the past sixty years, as being a victimized family, I have studied very well their methods and their mentality. Therefore, as a preventive measure, I kindly ask the reader to see the Youtube videos titled "Making 3D PHOTOS & VIDEOS | Tutorial" (www.youtube.com/watch?v=-qKaY-6uNSM) and "Blender Motion Tracking - Room Transformation!" (www.youtube.com/watch?v=IY8OI2n4o4A) which, I present at the end of the Appendix. For what might worth, I remind for one more time that, the settler-colonizers are, inconceivably ruthless and dishonest beyond all measures. Christos Boumpoulis.

Normal colonialism typically ends eventually, whereas settler colonialism lasts indefinitely, except in the rare event of complete settlers' evacuation or settler decolonization.

https://en.wikipedia.org/wiki/Settler_colonialism

The European Continent's settler-colonization shall last indefinitely unless a complete colonizing-settlers' evacuation takes place.

This fact, is very well known by the U2RIT and also, it is very much against their, supposed and perceived by them, "interests". For this reason, the U2RIT:

- gradually, turns the entire human kind to organic-portals (i.e. Ritchie Boys {and Girls})
- repetitively, prevents the public opinion from focusing its attention on the root problem, meaning on the colonizing-settlers inside of the victimized Nations' borders, by creating instrumental "threats" outside of their corresponding borders (e.g. Turkey's awkward, international aggression).

Consequently, the victimized, by settler-colonialism, Nations' survival depends, exclusively, upon their corresponding members' choice, "to be, or, not to be".
