Alain Delon is sick of the world

PARIS • Veteran French film star Alain Delon said on Thursday that he was so sick of the world he would be happy to die now - but wants his dog to go with him.

"I hate the times that we live in, it makes me vomit," said the 82-year-old, one of the most handsome men to grace the screen.

"Everything is false and only money counts. I will leave this world without regret," he told Paris Match magazine.

The British settler-colonialism never hesitates to commit any crime against any indigenous patriot in order to enslave them.

For example and as far as I am concerned, the colonizers they have perpetrated against me, judicial scams, slanders of the worst kinds, assassination attempts, and crimes against my real-estate property. And now, they (by using plausibly-deniable methods) use death-threats against me in order for me not to legally persecute them for the crimes they did to my family and me, and thus remain slandered and in essence, enslaved to them for the rest of my life.

My source informed me about a recent assault by an unknown till now criminal method, that was perpetrated against an European political-dissident in order to frame him.

The political-dissident is a made homeless and involuntary brain-implanted with brain-locking technology.

Among the six inescapable human natural needs there is the ejaculation; everyone knows this.

The colonizers attempted to steal semen from the political-dissident in order to use it as false-evidence for making, probably rape or paedophile, forged-accusations against him.

The homeless targeted individual visited a public toilette in a commercial centre.

The row of WC cabins, inside the men's toilettes, they were separated with each others by a thin separator wall that was leaving gaps, near to the floor and near to the ceiling, so that, above 2 meters from the floor, the cabins shared common space.

The perpetrator, which had a military body-shape and demeanour, went to the cabin just beside the victim's cabin, but he neglected to produce the ordinary noises that are common while using a toilette, thus the victim got suspicious.

The perpetrator brain-locked the victim while it was ejaculating (through solitary masturbation) and attempted to steal a sample of its semen.

For the above reasons.

- I wish to recommend to the gang-stalking victims to avoid using public-toilettes that have voids near to the selling or near to the floor.

- I wish to recommend to the soldiers to study the existing difference, between doing the duty towards the fatherland, and doing the duty towards the Jeudo-Russian Mafia.

By the way, I wish to declare for once more the followings:

- Since my childhood, I am a victim of human-trafficking and transnational organized-crime.

- I have been involuntarily brain-implanted with brain-locking and remote neural monitoring technology.

- I am a victim of human-harvesting and human-experimentation.

- I have been slandered with regard to the www.bobolasgate.info website and I filed a lawsuit, with evidence, about this fraud.

- My real-estate has been stolen by known perpetrators the identities of which I have named to the police authorities.

- On 2006 and 2012 I have survived from assassination attempts against me by known perpetrators the names of which I have denounced to the police authorities.

- My father Takis Bompolas has been a victim of inhumane tortures, for decades, and he was assassinated. The identities of the perpetrators they are known and I have made reports to the police authorities.

- I am a victim and eyewitness of settler-colonialism's crimes that were perpetrated in Greece.

Concluding, I wish to declare that I am going to consider as being a traitor and as harbouring criminals, anyone who supports the settler-colonizing U2RIT.

Christos Boumpoulis

economist

P.S.: I am determined, God's willing, to live my life till my very old day, as I consider that my life is sacred, invaluable, and, despite its hardships, beautiful. The French, great patriot Alain Delon, bravely describes the kind of influence that, the settler-colonizers they are applying over the international community. As the genocide of the Tasmanians demonstrated, whatever one does or avoids, with regard to the settler-colonizers' claims and demands, the teleology of them is such that, the "drugged and maddened with opiates beforehand" settler-colonizers shall make

every effort to destroy the one, in all cases. The international community by offering political legitimacy to the Greek dictatorship, thus ignoring heroes like Dimitris Batsis, archbishop Christodoulos, and many others, becomes responsible for the U2RIT's audacious criminality.
