The Greek Human-Harvesters Human-Traffickers

Εμπορία ανθρώπων, έγκλημα... χωρίς τιμωρία

Ηεμπορία ανθρώπων, ανδρών, γυναικών και παιδιών, θυμάτων κυκλωμάτων τα οποία επιδίδονται σε δραστηριότητες που εκτείνονται από τη σεξουαλική εκμετάλλευση μέχρι το λαθρεμπόριο ανθρωπίνων οργάνων, μένει τις περισσότερες φορές ατιμώρητη απ' άκρου σ' άκρο του πλανήτη, διαπιστώνει έκθεση των Ηνωμένων Εθνών που βλεπει το φως της δημοσιότητας.

In Greece, from the early 1960's and then, the children human-harvested "flourished".

The U2RIT employed Greek natives in order to gain access to Greek children's human organs/tissues. These Greek criminals victimized many Greek children, including myself; they destroyed their families; and they were rewarded by the colonizers with immense material wealth.

Currently, the colonizers and in order to cover-up their related crimes against humanity and in order to harbour and to secure legal immunity for, these Greek criminals, they perpetrate heinous crimes of a large scale, including their man-hunting against the existing eyewitnesses.

The international community, unforgivably, stood indifferent about our past, and about our present sufferings and thus, the international community seem to "pay" a large price.

In case that, Europeans with moral integrity exist, then, rescuing the hunted by the U2RIT, European victims and eyewitnesses it seems as if it is a good moral "investment" for these moral Europeans' future.

Christos Boumpoulis

economist

P.S.: The Greek human-harvesters/traffickers keep threatening my life in order to make me to promise that I shall be "silent" about their crimes.
