Message To The German Citizens 12/09/2021

Dear German Ladies and Gentlemen,

The human-life is sacred and invaluable.

According to superfluous publicly accessible evidence, the settler-colonizing U2RIT, based on the May 21th, 1949 illegal international treaty, they criminally, immorally and instrumentally, exploits Germany for perpetrating against other Nations various international crimes, and then, for unjustly letting Germany to collect the blame, against their victims and the rest of the international community.

Germany and Greece, according to my opinion, they should be unified; and for the past many years I work systematically towards this noble cause.

However, the existing interaction between the two Nations, solely because of the U2RIT's negative influence over Germany, it has caused such catastrophes that, the very existence of the Greek Nation it is severely jeopardized.

Here are the existing issues:

1. Germany avoids to denounce publicly the dictatorship, in Greece.
2. Germany legitimises the Greece's dictators.
3. Germany promotes and rewords the illegal "Prespes Agreement".
4. Germany, for decades, neglected to terminate the money-supply towards Greece, while the economy of Greece didn't justified such loans.
5. Germany, for decades, neglected to publicly denounce the illegal "Huge Cooper & Co" treaty.
6. Germany, neglects to clear-out the illegal and unexplained sending to Greece of a large quantity of, poisonous and neural-system wrecking, mercury.
7. Germany, neglects to offer legitimate, according to the international laws, asylum/shelter to the legitimate Greek political-dissidents.
8. The legitimate and lawful Greek political-dissidents, during the past 7 years, they were never

accepted, as such meaning legitimate and lawful citizens, by the German officials in order to coordinate efforts towards freedom from the settler-colonialism.

9. More than one, assassination attempts they were perpetrated against me, on 2011, at Duesseldorf; and many more hardships against me followed; all these they were never investigated.

I have no doubt that, it is the U2RIT the one who should be blamed for all the above issues.

However, as far as, Greece maintains an open, creative and positive attitude towards Germany, that far, the U2RIT, shall keep illegally exploiting Germany in order to further settler-colonise, meaning destroy, Greece.

This is unacceptable, wrong, and genocidal.

Very swiftly, corrective measures should be employed, including, in the worst case, the postponing and reversal of the much wanted Germany/Greece integration.

For the next few days, the initiative belongs to all of you.

You may do something; or, you may do nothing. It is up to you.

May you make the right choice.
