## Political-Dissent And Incognito

Any, politically-persecuted by the U2RIT, political-dissident who travels through a densely guarded by the U2RIT territory, naturally, neither, advertises his personal identity, nor, generously throws-away his signature here and there.

And even worst, if the political-dissident is being publicly denouncing the U2RIT's illegal intervention to the Greece's internal affairs (June 2010, "Huge Cooper & Co" treaty).

Consequently, it is far more plausible to expect from a kangaroo to not ever jump again than, expecting from the, professional and serial slanderer, U2RIT to not slander a legitimate and homeless political-dissident's, legitimate self-defence.

## Appendix

### Incognito

Incognito is an English adjective meaning "in disguise", "having taken steps to conceal one's identity".

<https://en.wikipedia.org/wiki/Incognito>

### Konstantinos Karamanlis

#### Lambrakis assassination

In the 1963 election, the National Radical Union, under his leadership, was defeated by the Centre Union under George Papandreou. Disappointed with the result, Karamanlis fled Greece under the name Triantafyllides. He spent the next 11 years in self-imposed exile in Paris, France. Karamanlis was succeeded by Panagiotis Kanellopoulos as the ERE leader.

#### Crises and self-exile

In the 1961 elections, the National Radical Union won 50.8 percent of the popular vote and 176 seats. The elections were denounced by both main opposition parties, EDA and the Centre Union, who refused to recognise the result based on numerous cases of voter intimidation and irregularities, such as sudden massive increases in support for ERE against historical patterns, or the voting by deceased persons. The Centre Union alleged that the election result had been staged by the shadowy "para-state" (παράκράτος) agents, including the army leadership, the Greek Central Intelligence Service, and the notoriously right-wing National Guard Defence Battalions, according to a prepared emergency plan code-named Pericles. Although irregularities certainly occurred, the existence of Pericles was never proven, nor is it certain that the interference in the elections radically influenced the outcome. Nevertheless, Centre Union leader George Papandreou initiated an "unrelenting struggle" ("αένδοτος αγών") until new and fair elections were held.
