Legal Notice 66 According to sufficient indications and between 5th and 16th of February 2017, a serious violation of my human rights may has been committed. During this twelve days period I have been in three different European Union member States. The alleged violation, probably, involves, State's authorities, misuse of power and surveillance cameras and, supposedly, intended to fabricate false evidence in order for me to become slandered as false psychiatric case (either, false, persecution syndrome, or, fabricated, speaking to the "thin air"). I refrain from revealing more detailed information due to, legal and personal security, reasons.

For the time being, I retain my freedom, though I am deeply concerned for the security of those European Union citizens which may advocate, either, for the Human Rights, or, for the International/National law.
